# Now you can support renewable energy without owning your own wind turbine.

**For as little as \$1.50 per month!**

Renewable Energy from  
Your Touchstone Energy® Cooperative 

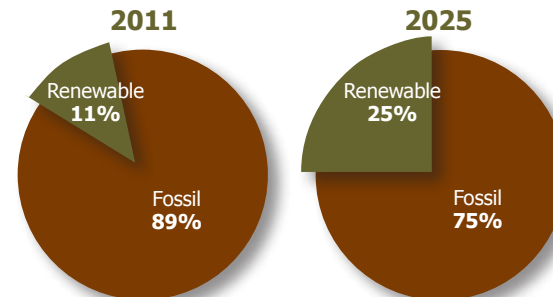

# RENEWABLE ENERGY

You can support renewable energy, protect the environment and reduce our dependence on fossil fuels when you purchase *Evergreen* renewable energy for your home, farm or business.

*Evergreen* is a voluntary renewable energy "green power" program available through your local Touchstone Energy Cooperative. *Evergreen* renewable energy comes from the wind, sun and waste-to-energy sources such as landfill gas and livestock manure.

In addition to your normal electric bill, you pay a small extra charge each month to offset the additional cost of renewable generation. Now even more of your electricity can come from renewable generation resources.

# FOR ALL THE RIGHT REASONS

*Your cooperative's renewable energy.*
