

# An important message from Jo-Carroll Energy

## Fulton increases municipal gas tax

Some municipalities in Illinois charge a municipal use tax for utilities. The City of Fulton has an ordinance requiring collection of this tax.

The Fulton City Council acted recently to increase the municipal utility tax for natural gas from 2.5% to 5%.

This tax appears on your Jo-Carroll Energy natural gas bill as "Municipal Tax." The increased tax amount will be collected starting with this billing cycle.
